Meeting Agenda, group 7

Date: 2017-03-28

Chair: Alexandra G.J

Participants: Jack, Svante, Aron, Alexandra

1. Objectives (5 min). Resolve any issues preventing the team to continue.

      - Unclear instructions over what really needs to be done. Will hopefully be resolved on Thursday during meeting with Adam. The lecture today will also be about domain-model which is unclear to us.

2. Reports (15 min) from previous meeting

      - Jack, Svante and Alexandra are still resolving software issues with Ubuntu.

3. Discussion items (35 min)

- Discuss issues from 1 and 2, possibly new or more general issues (very short notes and/or
keywords)
    - good idea to make a UML revolving around the code.

4. Outcomes and assignments (5 min)

- Outcomes from 3). I.e. write down what's decided and why it was decided? Sync with other
documentation (add terms to wordbook)
    - make a UML, will make coding easier.

- From outcomes, 1), 2) and 3) (re)assign each group member issues to solve.
      - still no individual assignments. Work is done in group. However each member needs to resolve issues concerning software programs to use.

5. Wrap up

- Write down unresolved issues for next meeting.
      - No unresolved issuses

- Time and location for next meeting
    - Friday 31/03, 09.00
